ATTACHMENT 1

309A
Microphone
Suspension/Shock Mount

Dimension Drawing:

General Description:

The Electro-Voice 309A suspension shock mount was designed specifically for use with the RE20, RE27N/D, and RE320 dynamic microphones. It provides near-perfect shock isolation for those already internally shock mounted microphones. For most applications, the Model 309A may be attached directly to the recording boom or to a floor stand. A stand adapter with 5/8"-27 thread is provided.

The 309A mount design allows quick installation of the RE20, RE27N/D, or RE320 microphone without tools. A double safety factor is provided to ensure that the microphone will remain attached to the shock mount under any conditions. First a "bayonet" locking action assures that the microphone will not fall out of the shock mount under its own weight. Additionally, a set screw (wing type) can be tightened to lock the microphone in place after it has been properly positioned.

Four (4) molded neoprene shock cords suspend and support the microphone within an aluminum and steel frame-work to effectively isolate it from mechanical shock and vibration.

Technical Specifications:

Material:	Aluminum and ABS resin
Finish:	Black
Dimensions (H x W x D)	9.09 in x 6.44 in x 6.06 in (231 mm x 164 mm x 153 mm)
Net Weight:	11 oz (312 g)
Shipping Weight:	14.7 oz (417 g)
Suspension:	Four molded neoprene cords EV Part No. 78297 (sold as each)
Rotation:	360 degrees swivel
Accessories Provided:	5/8"-27 Stand Adapter

4 sold

Product sellpoints

- Noise canceling microphone: The noise canceling microphone blocks background noise and provides a good listening experience.
- Windproof: The microphone shield can be used as a windscreen, which can effectively prevent the microphone from being blown away by the wind.
- Excellent quality: The microphone shield is made of high-quality foam sponge, which can effectively protect your microphone from dust and other harmful substances.
